Your personal information will not be shared. See Privacy Notice at the end.

Tick here if you would like to receive project updates

Please tick the age range which applies to you:

Under 16 16 - 30 30 - 50 Over 50

How did you hear about the drop-in session?

The Barachander Wind Farm project is currently in the ‘Scoping’ phase, meaning that your feedback can be carefully considered before all aspects of the project design are finalised. Were you aware of this?

Yes, I’m aware the project design has not been finalised No, I thought this was the final design

On a scale of 1-5, how concerned are you about the impacts of the climate emergency, especially for future generations? (1 = not concerned, 5 = very concerned) Please tick your answer.

1 2 3 4 5

Do you think harnessing renewable energy is important in the effort to secure clean, affordable energy and address climate emergency?

Yes No Not sure

Do you think Argyll should make the most of its substantial renewable energy resources?

Yes No Not sure

What aspects of the Barachander Wind Farm proposal appeal to you?

If you have any worries or concerns about the project can you specify them?

Is there any additional information that you would like to see included at the next project exhibition/drop-in session? These can include visualisations from specific viewpoints or information on specific topics such as noise, ecology, traffic & transport, etc.

GreenPower will provide £5,000 or equivalent per MW of installed generation capacity to the community every year. If 66MW is built (11 turbines), that would be £330,000 per year. What type of activity or need do you think would benefit most from this funding? This can be anything from ways to reduce local electricity bills to helping with skills to supporting affordable housing. We want this to reflect local priorities. Tell us what you think the priorities should be:

Please add any additional comments here on how GreenPower can make sure local priorities are being targeted to best effect:

GreenPower will also aim to employ local people and utilise local businesses as much as possible in these works. Can you let us know if you are aware of any local companies that could offer services/undertake work for this project? (This could range from catering and local accommodation providers to electricians, joiners, heavy plant operators and fencing contractors, etc). We will aim to include suggested contacts in our procurement list of local businesses who may be able to assist in the construction/ operation of the wind farm.

***GreenPower Privacy Notice**

GreenPower is committed to protecting your privacy and the confidentiality of your personal information. The personal information supplied within this feedback form will be kept secure and confidential and will not be shared with any other individuals or organisations.
